

# AUCTIONEER AMPLIFIER

It looks small until you turn it on!

After 64 years of trying every PA system that came along - the Auctioneer Amplifier is revolutionizing the auction industry!

- Powerful Amplifier
  - World Class Microphone
- Totally Portable
  - Rechargeable
- Extremely Comfortable
  - Light in Weight
  - Heavy Duty Performance
- A lot of look-alikes but

this is a one-of-a-kind original

The professional auctioneer recognizes the competitive nature of today's auction market. Proper cadence, pitch, consistency - the ability to hear yourself during an auction is absolutely critical to today's best auctioneers. That's what your Auctioneer guarantees.

The Auctioneer can be used as a stand-alone amplification system. Walking into any venue with complete confidence knowing you have your own totally portable voice

amplification system is a huge asset. For outdoor auctions you can't beat the convenience and portability of the Auctioneer!

For larger venues, use your Auctioneer as a personal monitor amplifier in addition to the house sound system. The Auctioneer can be used with any house sound system and will quickly add confidence to your ability to hear yourself during the auction.

**GIVE YOURSELF THE COMPETITIVE ADVANTAGE!**

**ORDER YOUR AUCTIONEER NOW!**

Your Auctioneer comes complete with EVERYTHING you will need to enhance your effectiveness in bid

calling.

Auctioneer Amplifier Lightweight amplifier worn around your waist as a fanny pack. Comes with preinstalled rechargeable ultra high capacity nickel metal hydride batteries, protective case and adjustable belt.

Auctioneer Headset Microphone Extremely comfortable and lightweight for all-day comfort and world class performance.

Auctioneer Car Charger We've all been there. A full day of bid calling only to get in the car, drive all night to do another auction the next day. This is where your Auctioneer Car Charger comes to the rescue. Simply plug it into the Cigarette lighter in your car and charge your Auctioneer while you drive.

### Emergency Batteries

Worst case scenario – you completely forgot to charge your Auctioneer and the batteries are completely dead and you have an auction to do in 10 minutes. No problem – we designed the auctioneer to accept 6 standard AA batteries for just such a circumstance.

Simply remove the back cover of the Auctioneer Amplifier and replace the dead batteries with disposable AA batteries and you are ready to go.

Auctioneer A/C Battery Charger This state-of-the-art trimline A/C charger is what you typically charge your Auctioneer with. Standard A/C chargers can weigh up to 3 pounds – which is simply too much bulk for the Auctioneer on the go! This high-tech marvel is a workhorse and weighs a mere 3 ounces.

Auctioneer Belt Extender Ultimate flexibility for custom fitting your belt for maximum comfort.

Spare Wind Screen Your Auctioneer is supplied with spare wind screens for simple replacement as the standard supplies one becomes worn. These wind screens are absolutely necessary for outdoor auctions where wind noise could otherwise be heard through your Auctioneer. A new larger windscreen is now included.

Auctioneer Carrying Case High quality padded protective case for your Auctioneer. Features a carrying handle as well as an adjustable shoulder strap. The Auctioneer Carrying Case provides protective compartments for all Auctioneer accessories along with a window pocket to put your business cards.
